Madrid, 28th May 2021

Dear colleagues from the ZSSS trade union confederation of Slovenia

We have known your struggle for more than a year and the protests that you organize every Friday afternoon. We also know that there has been a break in social dialogue in your country due to the authoritarian action of your government that has gone too far, not respecting the rules of social dialogue and seriously damaging workers and social rights in Slovenia.

We are at your side in this fight and we send you all the support from the General Union of Workers of Spain for the protest that you organize today.

In solidarity,

Jesús Gallego
Confederal secretary for International Policy
UGT Spain
